

## **“Want To Take The Stress Out Of Running Your Business?”**

**“Then Choose Custom-Made Software that Best Fits Your Needs”**

### **Ask Yourself This:**

- Does your current software give you what you want and what you need?
- Do available software programs make life easier?
- Is your website an effective marketing tool?

If you answered ‘no’ to any of the above questions, don’t feel discouraged, because there is no need to endure this any longer.

Speak to **Good Fit Software** and they will find the right SOLUTION for you.

### **Good Fit Software can do any of the following:**

- Find an existing program that best suits your needs and then Customise it to your business
- Write a custom-made Program that best fits your business’ needs
- Design an Effective Website, which includes attention to detail such as good photos, good copywriting and Search Engine Optimisation
- Provide complete Training and Support
- FREE advice available from our helpful team of consultants

Not only do you get a **quality** service from our team, who has over **20 years experience** in IT, but our costs are also very reasonable compared to most software companies.

A customization project can be done for a **low price of \$700**, depending on the degree of changes needed.

A small/medium website can be done for a **low price of \$400**, depending on the amount of work to be done on the site.
